# 1. Introduction

The present guide for reviewers and members of the Evaluation Committee is intended to support the work of the evaluators by providing:

- practical information;
- the evaluation procedure;
- the elements on which the evaluation is based;
- the expected results of this evaluation.

The evaluation concerns proposals submitted to the 2024 CY Initiative of excellence - Support for Scientific Excellence and Internationalisation.

# 1.1. Description of the Fellows-in-Residence programme

The CY Initiative invites applications from high-level international scholars and scientists in all fields, for up to 6 research fellowships. The call is open to leading senior researchers, wishing to carry out original individual research projects. The programme is hosted by CY Advanced Studies (CY AS), the Institute of Advanced Studies of CY Initiative. Fellows from all disciplines will take part in the Institute's interdisciplinary exchange programme.

The fellows-in-residence programme offers a multidisciplinary research environment and creates an opportunity for researchers to develop original research ideas, to apply their knowledge and skills to new domains and to develop cross-disciplinary initiatives. For the development of their research projects, fellows-in-residence will be jointly affiliated with one of the research centers of CY Initiative where they will be able to create contacts, exchange knowledge and collaborate with researchers from various fields.

The CY AS Fellowship Programme supports researchers from all countries and all disciplinary backgrounds. While there is no restriction on nationality, appropriate permission to work in

France is required before taking up the Fellowship.

Two types of fellowships are proposed:

- Senior fellowships: for researchers with more than 10 years after obtaining their PhD, with a permanent position in a foreign university or research institute. Senior fellowships are granted for a period of 4 to 10 months. It is possible, in the context of a long-term collaboration, to divide this period into two or three stays over multiple academic years.
- National fellowships at junior or senior level: for researchers holding a permanent position in French universities. In view of developing collaborations between CYU and other national research centers, CY AS offers the possibility to host researchers during their CRCT semester by reimbursing the teaching charges to their home university.

Fellows-in-residence will be jointly affiliated with CY AS and the research centers relevant to their research project. At CY AS, they will be offered office space and access to conference facilities. They may also take advantage of the housing facilities of the institute.

Fellows-in-residence commit to a regular participation in the scientific activities of CY AS, including CY AS seminars and guest lectures.

They are expected to develop collaboration with the research groups of CY Initiative, in relationship with their research activities. Before the submission of their application, they are strongly encouraged to establish contacts with the research groups in line with their research proposal.

Reference documents:

The website of the call for projects describes the scope of the call for proposals: https://cy-initiative.smapply.io/res/p/docs/

#### 1.2. Application

The online application consists of two parts:

- the first part concerns applicant's personal information, the project summary, its integration in the scientific strategy of the researcher, the collaboration with the laboratory at CY Initiative and the expected impact of the project;
- the second part includes the applicant's CV, letter of support signed by the director of the research center and, possibly, additional documents.

# 2. Evaluation and selection process

### 2.1. A two-level process

The evaluation and selection process consists of two levels:

- Each application is submitted to the evaluation of two **experts** who assess the online proposal on the platform
  - The experts are chosen for their disciplinary competence in connection with the submitted research project;
  - They submit their evaluation report by **April 1, 2025**.
- For each application, the evaluation reports are submitted to one or two **members of the evaluation committee** for the consensus round.
  - A consensus report is written for each project on the basis of the evaluations above mentioned.
  - All consensus reports are submitted by April 11, 2025.

The evaluation committee is composed of:

- external members chosen for their scientific expertise and their experience in science policy;
- vice-presidents or directors in charge of research in partner institutions;
- the scientific coordinator of the call for proposals;
- ESSEC's scientific representative within CY Initiative of Excellence.

It can be assisted by the directors of the doctoral schools of CY Initiative.

During the evaluation committee meeting a short list of projects is established and is proposed for funding to the Executive Office of CY Initiative.

# 2.2. Confidentiality agreement and code of conduct

Please see below the ANNEX A.

# 3. Expert's evaluation of proposals

#### 3.1. Objectives

The purpose of the evaluation is to select the best proposals according the international standards for competitive project selection.

The expert will evaluate:

- The scientific quality and the innovative nature of the project;
- Feasibility of the project;
- The expected impact of the project;
- The applicant's experience and scientific excellence;

- Link with the overall strategy of CY Initiative.

#### 3.2. Scoring

The experts and the members of the Evaluation Committee complete a multi-criteria evaluation form on the online platform <u>https://cy-initiative.smapply.io</u>

Before the evaluation experts and members of the evaluation committee need **to register** and <u>to confirm the activation link received by mail</u>.

The expert gives a score and a short comment for each evaluation criterion. Comments must be clear, concise, and consistent with scores.

The scale of scores range from 0 to 50 as indicated in the table:

| Scoring Rubric:                            |
|--|
| All questions scored on a scale from 0-50. |
| 0-10 = Poor                                |
| 11-20 = Fair                               |
| 21-30 = Good                               |
| 31-40 = Very good                          |
| 41-50 = Outstanding                        |

Each evaluation should include a summary highlighting, in bullet point list, the strengths and weaknesses of the project proposal.

The letter of support from the director of the research center will be taken into account for the evaluation of the strategic nature of the project.

#### **3.3. Practical information**

All expert's work must be done remotely.

#### 3.3.1. Access to proposals

Access to the files and the entry of the evaluations are done online, via the platform: <u>https://cy-initiative.smapply.io</u>

• Experts and evaluators are invited to register when they receive an email from CY Initiative Platform.

# 4. Annex A: Confidentiality agreement

#### Code of Conduct for the evaluation committee members

#### Confidentiality

During the evaluation process, the evaluation committee members and experts must keep confidential all data, documents or other material (in any form) that is disclosed (in writing or orally) and that concerns this call for applications.

The evaluation committee members and experts must keep their work strictly confidential, and in particular:

- 1. not disclose (directly or indirectly) any confidential information relating to proposal(s) or applicants;
- 2. not use the information communicated, nor the new concepts contained in the transmitted documentation, for purposes other than the assessment of the proposal;
- 3. not discuss proposal(s) with others except during evaluation meetings;
- 4. not reveal the content of the deliberations of the evaluation committee, the identity of the evaluators or the ranking of the proposals;
- 5. not communicate with applicants during the evaluation or afterwards;
- 6. keep all documents submitted for evaluation in a secure place;
- 7. at the end of the evaluation, committee members and experts are responsible for ensuring adequate protection of electronic documents and information and for returning, erasing or destroying all confidential information.

#### Impartiality

The evaluation committee members and experts must perform their work impartially and take all measures to prevent any **conflict of interests** that is any situation where the impartial and objective implementation of the work is compromised for reasons involving professional, economic interest, political or national affinity, family ties or any other shared interest.

In particular, the following situations will automatically be considered as conflict of interest:

(a) for a proposal(s) the expert is requested to evaluate, if he/she:

- was involved in the preparation of the proposal(s);
- is a director, a collaborator or is in any way involved in the implementation of the proposal;
- the expert works in a different department/laboratory/institute from the one where the research is to be carried out and the departments/laboratories/institutes within CY

Initiative. In this case, the other experts in the committee will be informed about the situation of the expert.

• has close family ties (spouse, domestic or non-domestic partner, child, sibling, parent etc.) or other close personal relationship with the applicant. In this case, the expert must be excluded from the evaluation.

(b) The expert will be required to **confirm** — for each proposal(s) s/he is evaluating — that there is no conflict of interest, by signing this confidentiality agreement.

If the expert is (or becomes) aware of a conflict of interest, s/he must immediately **inform** the Fellows-in-Residence programme officer.

#### Declaration

As a member of an evaluation committee, in case of conflict of interests, during the application review <u>I agree with</u>:

- 1. not evaluating the application concerned;
- 2. not participating in the committee during the final deliberations regarding this application.
