*subject to INSEI joining CY Cergy Paris University

** Research structure eligible for the 'multi-laboratory' criterion but unable to carry out the project or receive funding because not registered with the National Register of Research Structures (RNSR).

➤ External Researchers

Partnerships out of CY Generations perimeters (external researchers) are encouraged but are not eligible for multi-laboratory criterion, neither received funding. Members of eligible research centres coming from other institutions are considered as external researchers. The same applies to members of an eligible institution who are part of a non-eligible research centre.

Périmètre d'éligibilité pour l'appel à projets CY Générations 2025

| ➤ Chercheurs internes de CY Generations <i>minimum 2 researchers working in...</i> | | |

*sous réserve d'intégration de l'INSEI à CY Cergy Paris Université

**Structure de recherche éligible pour le critère "multi-laboratoires" mais ne pouvant pas porter le projet ni recevoir de fonds car non enregistré au Registre National des Structures de Recherche (RNSR).

➤ Chercheurs Externes

Les partenariats en dehors du périmètre CY Générations (chercheurs externes) sont encouragés mais ne sont pas éligibles pour le critère multi-laboratoires, ni recevoir de fonds. Les membres des centres de recherche éligibles venant d'une institution non éligible sont considérés comme chercheurs externes. De même pour les membres d'une institution éligible faisant partie d'un centre de recherche non éligible.
